1) Indian MIS list is showing Dubai MIS List(for test i have used Dubai Admin)

Ans : Previously we decided to show records in reports region wise(as per filtered by session values). After some days we decided to show all records to all users in reports only, so we commented that piece of code.
Now please confirm that which records you want to show in reports.
  a. Only as per selected country
  b. As per selected all region
  c. Nothing

2) Region/Zone Wise MIS, Client Wise MIS and TAT MIS is not working, System Stuck in after click on MIS Report

Ans : I have checked Region/Zone Wise MIS, Client Wise MIS it is working fine,there is issue in only TAT related reports.I have used Indian admin account.
Can you please provide us Dubai admin account details to check this.

1) If i have assigned Country to any one then it should be show all records to country admin
2) If i have assigned level wise than it show according to the levelwise

3) User Name : Dubai
   pswd : dubai@123
