(All Members) | Excel for My-project

Hi Manas,

Can we get all details/status of My-project tickets in excel format.

Right now we are manually updating details in excel. and it's very time consuming task.

Hello mam,

Need to discuss with Sir Kailash and Sir Siddharth for this requirement, will update here once done.

Hello mam,

As discussed with Sir Kailash, we already have **D217 ,** where we update task list manually checking myproject.

We do this process manually as some task which are on task list are closed in myproject due to long pending or no reply. There are even task older than 1 year which seems to be of less priority.

Such discissions cannot be made using myproject excel report, as we need to check every thread reply and update remarks also for all of these tasks.

As suggested by Sir Kailash we can upload the task list excel in google sheet so that the link remains open to all shared account. But then we have to keep that excel in sync with our myproject also whenever new task is added or close and update remarks.

Please close this point if no further query or discuss if any.
