Every user should change password after three month

Change Password :

1) Every user should change password after three months (Currently not available for mobile user).
2) This three month will be depend on updated password date
3) Without change password, user should not access any menu.

We shall start work on this from 11th April, 2018. This change will be for only web users and not mobile users.

It will require 2 days till demo server.

Also if user did not change password for 3 months and he used forgot password to reset his password then on reset his last password update date will be updated.

Is forgot password functionality removed from both demo and live?
I have checked it is not working.

As per discussion with Sir Kailash instead of using 3 months for password date change, it would be better to fix it to 90 days.

Please let us know if this is ok.

Changes are done please check.

Password has been changed for Super Admin and Supervisor (System Tester).
Please check with other user login.

Also forgot password functionality not working is resolved and update in demo server. For testing forgot password employee must have email address saved in employee master.

Please check and confirm

Hello Bhavana,

Please update above module on live with following changes.
1) user should change password after every one month
2) user can not set old password as new password.

Hi Bhavana,

On forget password page instead of USER ID it should be User Email ID.

Hello Bhavana,

I tested on demo site using 2 days limitation . As of now we redirected to change password page as discuss (because of first time).
Will update you for another testing of after one month change password.
