Employee Rate Master | High

Hi,

Pin code Master and Employee Rate Master should be connected.

For e.g. if 123456 pin code is mapped to Mumbai location.
Then in employee rate master; while uploading/importing rate if user updated different location on import file error message should be pop up on screen.

Hi,

Query : Since Subcenter is not compulsory in pincode master, then if when importing sub-center is not mentioned in excel sheet, but it is present for that pincode in pincode master, then should we show validation message while import.

Hi,

No. FE Rate will be updated for Center only.
