Resoft memory limit issue | Low

Today(26/03/2015) Rahul sir faced an issue that after saving data(in edit case) showing blank page.
I did investigation of this and found that script is using too much memory, it was giving an error i.e. "Allowed memory size of 33554432 bytes exhausted (tried to allocate 43148176 bytes)".
So, to resolved this issue i have changed setting of memory limit(set it as unlimited) and issue have been resolved, It is working fine now.
