Point 6 : Keep FE activity track in single table (Mobile app)

---

1) It is a webservice task, Sandip will do it because he has created both tables.

Pamac Response :
This is also a database task, hence coders to close this in sync with Sandip

Reply Shimbi :
We shall provide help/testing when development starts by Sandip, regarding webservice/database changes.

What response is required here?
Posted By : Bhavana Pachpande
D126
Date & Time : 12-09-2016 09:16:AM
None, just let us know when Sandeep will start making changes in webservice/database, so that we can schedule time to provide help if required.

Date & Time : 16-09-2016 05:14:PM
As I discussed with Rakhi on it.
As decided we will remove table from database fe_log and tbl_fe_track.
And created new table **tbl_mst_fe_log** on demo site .
Currently for Login and RES Data Entry event's value inserted in fe_log table for that required to update the code in web service.

And also update the code for keep record of last 15 days in table **tbl_mst_fe_log.**

Date & Time : 27-09-2016 01:51:PM
Hello Sir,
I updated the web service (api_live.php) on demo site.
Now FE Log saved in **tbl_mst_fe_log** successfully.
Sir, Please confirm us code is updated from your side for keep record of last 15 days in tbl_mst_fe_log.

Hi Sandeep,

As per our discussion (on skype), we need to create a cron for deleting the fe log(from tbl_mst_fe_log) older than 15 days.
And will write and set it after APK go live.

Please share the timeline(date) for this.

Date & Time : 24-10-2016 05:02:PM
@Sandeep:
Created and set a cron file to remove log older than 15 days from tbl_mst_fe_log.
Updated these changes on demo site.
Cron will run every midnight.

Please check file 'delete_fe_log.php'(in cron folder) and confirm.

@Rakhi
I checked delete_fe_log.php file on demo site.
Its fine.

D126
Date & Time : 26-10-2016 11:33:AM
Please share the date to upload this on live site.
Posted By : Sandeep Ghuge
D126
Date & Time : 26-10-2016 11:58:AM
This point we can upload on tomorrow morning .
First we need to add table in both database(India and Dubai).
after that will update web-service and then cron job.
fe_log and tbl_fe_track table will remove from database on date 7th Nov 2016.
Posted By : Rakhi Gaud
D126
Date & Time : 07-11-2016 04:51:PM
@Sandeep :
Done with uploading and set cron for file delete_fe_log.php.
It will execute every night on 12:05 AM.
It will delete log older than 15 days from both the databases(India and Dubai).

Date & Time : 16-01-2017 05:33:PM
@Rakhi development is remain here from my site .
We will add some more fields in this table **tbl_mst_fe_log**. I will reply here what and which fields will required and also for why .
Posted By : Sandeep Ghuge
D126
Date & Time : 17-02-2017 11:24:AM
Hello Team,

I have updated the implementation and also tested.
Currently we achieved the basic requirement for fe tracking also saved in above table **tbl_mst_fe_log**.
We will update here other functionality(tracking) once it complete .
