Mismatch in template preview and case edit | High

Issues faced as below:
1) Active inactive fields are shown properly in template preview but not seen correctly in case edit
Eg: Here template preview screen shot has 4 fields visible - pick up date, Identity prrof, address proof & income proof when the Field visit status is Collected and Field visit sub status is Submission Pending. But the same fields are not active in screen shot of Case edit

2) Selected Check box values are not seen in case edit form
Eg: Case view screen shot has the value of check box for identity prrof, but the boxes are not ticked in the Case edit screen shot.

Sorry I was unable to check this on Monday(19-09-2016) because I spent time on discussion of pending task with Kailash sir and in replying same in Myproject.

I will check and update once done.
