Reports

As per discussion with Rahul sir following are the conditions for reports search filter:
1) Covering letter: It will search case close date in given date range.
2) FE Assignment report: It will search FE assign date in given date range.
3) Case Pending report : Pending.

Thanks,
Rakhi

As per discussion(telephonic) with Rahul sir :
Covering letter : It will search TAT calculated date in given date range and column will be as follow-
   SR No | Ref No | Received Date(Case created date) | Verification Type(multiple columns) | Name | Send Date(TAT calculated date)

Thanks,
Rakhi

I have query which is effecting covering report.

for showing same case having different verification type first we need to do some change in TAT search list:
Currently TAT search list shows closed cases without checking same case for all verification types is closed.
If we check it then there is case in which at the time of TAT calculation if we do not select all case having same data(only verification type is different) then we cant see remaining cases anymore.
To solve this we need validation before calculating TAT.
Is it ok?

In TAT Calculation If we have grades RV+BV+RT+BT If we are closed only RV+BV+RT but not BT, In this case are not calculate the TAT and in TAT calculation Bucket does not shows.

Only Shows applicants all cases are closed and TAT could be considered in TAT Calculation.

Thanks,
Rahul Naik
