Hi,

This error occurs whenever Mysql service get restarted for few seconds.

I call data center to investigate issue of slowness(high MYSQL CPU Usage).
May be error come for 1 or 2 seconds. you can refresh page.
website is showing proper.

Hi Kailash,

It showed more 4-5 times on that day and hence the error was posted.

Once or twice a day it shows normally and I do not post it in Myproject for every instance.

show by 2 reasons
1) database error show for few seconds when we restart mysql service.
2) show if database is too busy and unable to open/allocate database instance to that login user
