Dubai Login Issue | Emergency

Hi Kailash,

Once again we are facing the login issue, When we kept system Idle or some time when we logout the system, once again we try to login the system that time it show User Already login.

This is Happen in Dubai Team.

Please revolve this issue

Regds,
Rahul Naik

Hi,

Whenever user suddenly closed the browser(not do proper logout),
after that user try to login again then system check the updated login time which is getting updated after every 2 minutes while user logged in.
We have given the margin of 3 minutes means system check the non updated login time of user from last 3 minutes and then delete the record, so user can do login again.
This is already explained to Rahul Sir on **skype** on 02/03/2015.
