Dipika Yedge | FE Rate Deletion

Hi,

As noticed today, some of the Employee rates has been not showing in report. It got deleted.

We didn't receive any deletion log.

Henceforth please maintain log for deletion as its a very crucial data.

Hello mam,

We can add soft delete logic like that of cases. And only Super Admin can permanently delete rates. Instead of keeping log files data will be kept on table but won't be used for any calculation or show in list page unless the delete flag is removed.

Hi Manas,

As discussed required only deletion log and not required to restore the data.

Hello mam,

Are there any more modules where you want to keep log for so that we can add them in code together.

Hello mam,

Changes are updated on country demo server, for testing let us know when you want to test we will check log file and tell you the id who deleted the records, once confirmed will update changes in live server also.

Change is applicable for "Employee Rate" module only. For any other module if log is required let us know also log is created in month wise file in order to keep less log file number.

Hello mam,

Changes are uploaded in live server also, please let us know when to test and confirm.
